Job Specification

Light Fantastic Production Services Ltd provide high quality lighting, audio, video and scenic solutions to the live events industry. Our clients rely on us to deliver bespoke production solutions to a wide range of prestige live events across the UK & Europe.

An opportunity has arisen for an enthusiastic individual to join our set & staging team based in Borehamwood, Hertfordshire as CNC & Laser Cutter Operator. The role will involve interpreting working drawings and briefs to set, program and operate our large format 3 axis CNC machine and laser cutter.

You should have an excellent working knowledge of construction techniques and proven experience working with CNC machines. A familiarity with VCarve, Autocad and Lightburn software packages would be beneficial but full training will be provided.

The ideal candidate will be enthusiastic, eloquent and able to work well as part of a wider team or using their own initiative. You must be keen to learn and develop your expertise continually, meticulous and thorough in your work and have excellent interpersonal skills.

Due to the nature of the live events industry working hours will be varied and will include evening and weekend work. Schedules can be subject to change at short notice and a flexible attitude to working hours will be essential. A full driving license will be extremely beneficial.

This is a great opportunity for the right candidate to join a friendly and passionate team that thrives on a challenge. We'll reward you with a generous salary, opportunities for personal growth and a fun working environment with a group of people who care.

To apply, please send a CV to careers@lfps.co.uk along with a covering letter telling us what sets you apart from the crowd.
